

## Milestones & Activity List

Date	1 November 2022
Team ID	PNT2022TMID48286
Project Name	Analytics for Hospitals' Health-Care Data

MILESTONES	ACTIVITY LIST
MILESTONE-1	Collecting of data from hospital based on the application
MILESTONE-2	IBM uploads the collected data to the COGNOS platform
MILESTONE-3	Data analysis on the IBM COGNOS platform
MILESTONE-4	Data visualization on the IBM COGNOS platform
MILESTONE-5	Creating an interactive dashboard based on data
MILESTONE-6	Displaying the prepared dashboard based on data
MILESTONE-7	Preparation of standard dataset and elimination of redundant data using Python programming
MILESTONE-8	By using various methods, examining the result and getting accurate result with the help of more accurate algorithm.
MILESTONE-9	Display the result according to the required format, for example display the patient's length of stay
MILESTONE-10	Upload data to Github
